

# KENWOOD

## GLOSSARY

### Clear Resistive Touch Panel

A clear screen designed to reduce glare that includes a resistive touch sensor for accurate control during operation.

### Capacitive Touch Panel

Clear glass display that provides superior picture and touch panel control.

### Music Mix

Up to 5 Bluetooth® devices can be paired to the head unit at the same time, you can enjoy audio streaming just by switching the devices with your friends or family.

### Dual Phone Connection

While you are connected through Bluetooth, with a touch of a button you can switch between two phones.

### Remote App

A smartphone application can control most basic functions of the receiver over the Bluetooth connection of the paired phone (iPhone or Android).

### Wireless Music Browsing (AVRCP 1.5 / 1.6)

Search and select songs from your music collection through a Bluetooth connection.

### Graphic EQ / Digital Time Alignment

13-Band equalizer and DTA gives optimal tuning enhancements for listener.

### Drive EQ

Boosts specific frequencies in the audio signal to overcome the negative impact of road noise.

### FLAC Supported

Compatible with various audio file formats from FLAC and WAV, to MP3, WMA and AAC.

### Dash Cam Ready

Dash Camera (DRV-N520) can be controlled and viewed from the touch screen.

### Dual Camera Input

Two camera inputs for front and rear cameras.

### 3 Camera Inputs

Optional camera connection method for up to 3 cameras in various configurations.

### Parking Guide Lines

Parking guide lines (requires installation of compatible backup camera) that enhance the effectiveness of a backup camera.

### Lane Assist

Lane Assist guides you to the correct lane for an approaching turn or exit, making unfamiliar intersections and exits easy to navigate.

### DUAL USB

Multiple USB ports provide additional inputs for music sources or smartphone battery charging.

### Detachable USB

The USB cable can be disconnected from the back of the receiver for easier installation and service.

### FRONT USB & AUX

Easy front panel connection for your compatible USB-enabled devices. These include iPhone, iPod devices as well as compatible Mass Storage Class devices like smartphones, USB thumb drives and portable hard drives.

### Variable Color Illumination

Bright variable color LEDs can be adjusted to match any color dash lighting.

### CD Door

The CD slot cover prevents dust from entering the transport.

### Short Chassis

With receivers shorter in depth than any of our previous models, installation is made easier in a wider range of cars than ever before.

### Conformal Coating

Improved moisture resistance of the circuit boards to prevent corrosion.

### Customizable Multi-Widget

Customize your Home Screen by selecting four shortcut/information widgets. Widget options can include album art, clock, compass, photo frame, visualizer, weather, turn-by-turn, Garmin navigation, and more.

### Wireless Mirroring for Android

Solution for seamlessly displaying and controlling your smartphone apps on a screen without cables on select Android devices.

### Android USB Mirroring Ready

Solution for seamlessly displaying and controlling your smartphone apps on a screen via a USB connection on select Android devices.

Apple CarPlay™ \*

Apple CarPlay is a safer way to use your iPhone in the car. Simply talk to Siri or touch the receiver's display to get directions from Apple Maps, make phone calls, listen to voicemail, send and receive texts, and listen to music, all in a way that allows you to stay focused on the road. With the latest iOS version (iOS 12.0 and higher), 3rd party navigation apps like Google Maps™ and Waze™ are also supported. New KENWOOD Wi-Fi receivers now support Apple CarPlay wirelessly (compatible phone required).

\* Selected Models Only

iDatalink Maestro RR

When an Automotive Data Solutions iDatalink Maestro RR is connected to a compatible KENWOOD receiver, it provides a seamless interface with factory infotainment features such as Satellite Radio, USB Media Player, Bluetooth handsfree and music streaming. Vehicle information such as HVAC, performance information, and TPMS can also be displayed.

Android Auto™ \*

Android Auto was designed with safety in mind, helping you to minimize distractions and stay focused on the road. KENWOOD's multimedia receivers combine an intuitive voice controlled interface with a large touch screen and superior sound quality, making it the perfect complement for your in-car life. With the latest ANDROID OS version (PIE and higher), Google Maps™ and Waze™ are also supported. New KENWOOD Wi-Fi receivers also support Android Auto wirelessly (compatible phone required).

3 Camera Inputs

To enable a smarter driving experience, receivers featuring 3 camera inputs allow for the utmost in convenience, flexibility, and safety. With 3 camera inputs, you can connect a front camera, a KENWOOD dashboard camera (DRV-N520 sold separately), and a rear camera. Alternatively, 3 camera inputs support several other configurations, including the connection of 2 blind spot cameras and a reverse camera. The KENWOOD CA-C3AV cable (sold separately) is required to use the 3rd camera input.

Customizable Multi-Widget

You can customize your Home Screen by selecting four widgets. Depending on model, Widget options can include album art of current song, clock, compass, photo frame, visualizer, weather, turn-by-turn, Garmin navigation, and more.

Wireless Mirroring for Android \*

Solution for seamlessly displaying and controlling your smartphone apps on a screen without cables on select Android devices.

\* Selected Models Only

High-Resolution Audio

High-Resolution Audio is high-quality sound that exceeds the CD standard. With its increased detail the music takes on a new life, from the most delicate passage to the dynamics of ultra-high frequencies and deep lows. You will feel as if you were in a concert hall.
