WHEELPROS CUSTOM SHOP

**"NOBODY  
DOES IT BETTER"**

The Wheel Pros Custom Shop builds forged wheels to your exact specs. Designed and manufactured in York, South Carolina and Southern California, every wheel is CNC-machined in-house from aerospace-grade aluminum. Choose from monoblock or multi-piece designs with customizable sizes, bolt patterns, and offsets for dialed-in fitment, with nearly infinite finish options to match your build. No one does custom like us.

American Force just expanded its forged lineup with the all-new 2-Piece Sport Truck Series. 12 pristine styles built in York, South Carolina are now available to order. The Sport Truck Series offers forged styling, full size flexibility, and proven American Force quality across lowered truck applications.

**FFT & FUSION FORGED WHEELS**

Black Rhino's Bead Retention System (BRS) is designed to bridge the gap between everyday wheels and hardcore off-road beadlocks. Our BRS lineup features machined grooves in the wheel's bead seat that help increase tire grip when running lower air pressure, reducing the risk of slippage or debanding. It's the ideal solution for drivers who want trail-ready traction without the legal or mechanical headaches of traditional beadlocks.

The **Rockledge BR406** is Black Rhino's first forged wheel designed around an integrated AeroDisc system. Built specifically for the Rivian R1T and R1S, it features a 6061-T6 forged construction and a bolt-on AeroDisc that delivers a clean, modern profile. The removable disc allows the Rockledge to transition easily from trail use to street driving, making it a versatile option for Rivian owners.

## AERODISC

The AeroDisc system is designed to reduce open spoke exposure and manage airflow without compromising brake system cooling. Developed to balance function and aesthetics, it gives Rivian owners the ability to tailor the look and character of their setup while maintaining everyday usability and performance.

The Black Rhino removeable rock guard ring is a bolt-in HDPE protective ring designed to guard the wheel lip from scrapes and dings. Our rock guard retains its color when scratched, keeping bumps and scrapes low key and ensuring a cleaner look. This non-structural ring is easy to swap in your driveway, making it a cost-effective alternative to costly wheel repairs or replacements. With easier maintenance and cleaning, it's the ideal accessory for off-road enthusiasts who want more time on the trails and less on upkeep.

## PRODUCT SPOTLIGHT OPTIONAL MODULAR CENTER CAPS

Personalize and stylize your Black Rhino wheels with our new center caps. Designed for off-road durability and bold looks, these caps are easily swappable using only three bolts and fit a wide range of wheels, including all new Black Rhino styles and BR020 models onward. Available in three unique designs: Classic Stripe (SKU: BRCAP104), Mountain (SKU: BRCAP105), and Rhino Logo (SKU: BRCAP106). These caps are perfect for 5 & 6-lug applications (not compatible with 8-lug wheels).

MEASURE**

Fusion Forging is a hybrid-construction method that combines a 6061-T6 forged aluminum barrel with a machined cast face. Joining these 2 materials creates a wheel that carries the structural benefits of forged wheels with the detailed styling associated with cast construction.

This manufacturing approach produces higher rigidity, improved strength-to-weight characteristics, and a wider range of design possibilities.

SCAN TO LEARN MORE  
[FUSION.FUELOFFROAD.COM](https://fusion.fueloffroad.com)

With Fusion Forging, a 6061-T6 forged aluminum barrel is combined with a machined cast face to create a balanced hybrid design. This approach brings together the durability of forged construction and the styling flexibility of cast manufacturing.

Constructed from aerospace-grade 6061-T6 aluminum at our dedicated forged shop in York, SC, these wheels are engineered to take your lifted truck to the next level. With offsets, bolt patterns, and finishes made exactly to your specs, the Fuel Forged lineup delivers unmatched attitude, fitment flexibility, and performance for any ride.

**FORGED & FFT WHEELS**

Our forged wheels are machined from 6061-T6 aluminum alloy monoblock forgings and manufactured in the U.S.A. Available in 20-30" diameters and Polished finishes.

**TRAILTEK R/T**  
DISCOVER AVIX TIRES PG160-161

Fuel Off-Road's cast one-piece dually wheels are made in fitments for street, lifted, and extreme trucks running traditional or super single front wheels. Dial in the perfect fitment with three backspace options. Choose from 2.5", 3.5", or 4.5" spacing options and take your stance to the next level. The dually lineup is offered in a variety of standout finishes, from Chrome to Gloss Black with milled accents. Backspace options give you the ability to customize your stock or modified dually truck. We offer three different specs to play with: 2.5", 3.5", or 4.5" spacing, each for a specific look and style.

**IMPACT KM447**

**CONQUER EVERY TERRAIN WITH PRECISION**

The KMC Impact Forged is ready to be used and abused on the trails and the streets. Based on our popular Impact OL and Impact Forged Beadlock wheel, the Impact Forged KM447 features the same iconic motorsport inspired multi-spoke design with some extra muscle for the trails.

## NEW! BEAD RETENTION SYSTEM

Air down with confidence. Bead Retention System uses precision-machined knurled grooves in the bead seat to help keep the tire locked in place at low pressure. The added friction reduces bead slip so you get more traction when it matters most. **No bolts. No extra hardware. Just built-in bead security for real off-road use.**

## ENVOY AB051

The Asanti Envoy AB051 redefines contemporary wheel design with an elegant mesh pattern and uncompromising craftsmanship. Designed to elevate luxury vehicles, this wheel blends refined aesthetics with performance-driven engineering, creating a commanding look that stands out from every angle.

**FORGED 2-PIECE WHEELS**

At Asanti, we don't stop until every aspect of the wheel creation process is perfect. That's why our all-new Custom Forged Series is the ultimate blend of craftsmanship, quality, and performance. Choose from a variety of fitment options, finishes, and industry-leading designs. From big-body luxury sedans and SUVs to modern Mopar and pony cars, Asanti has you covered 2-piece style and forged strength.

AERODISC 2

At Rotiform, we don't just follow trends; we create them. Driven by enthusiasts, designed by experts, and engineered by perfectionists, Rotiform is not just a brand. It's a lifestyle. We've been making wheels since 2009, and we're just getting started.

**MORE SIZES.  
MORE APPLICATIONS.**

**MORE  
BETTER.**

**The AeroDisc 2 is definitely better.**

Featuring new 18, 19, and 20-inch options, updated flat and concave profiles, and molded or smooth faces for whatever look you're chasing. The all-new AeroLock system snaps in with zero threads required. Just push, twist, and go. Three adapter lengths let you run AeroDisc 2 across a wider range of Rotiform wheels, from Cast MonoBlock to Forged. We know chafing sucks, that's why we include a hidden silicone gasket that protects your wheel's finish from rubbin' up on the disc.

Better fit. Better lock. Better AeroDisc.

Coming soon to [Rotiform.com](http://Rotiform.com)

ROTIFORM AEROLOCK SYSTEM

AERO

rotiform

ROTIFORM AEROLOCK SYSTEM

Spawned from the Rotiform Motorsports Division (RMSD), these wheels are built for drivers who brake late, throttle early, and never lift. Lightweight, strong, and engineered for full-send antics, they're ready for whatever abuse you dish out. Choose from three classic designs, each clad in one of three finishes that look just as good dirty as they do clean. Welcome to Flow Formed Technology.

## FORGED 3-PIECE WHEELS

Rotiform's forged wheels are enthusiast inspired, artisan designed, and neurotically engineered. Featuring 3-piece construction and a whopping 31 all-new designs, each set is built to inspire lustful admiration and envious glances. Your specs, your way, finished in your color. Hand built in the USA, Rotiform.

## HRG RF768

Unleash the perfect balance of strength, fitment precision, and bespoke style with the **Rotiform HRG RF768** — a fully forged 3-piece wheel engineered for enthusiasts who demand the best. Crafted from premium forged aluminum, the HRG RF768 delivers exceptional rigidity and reduced unsprung weight for sharper handling and improved vehicle dynamics. Uncompromising performance and tailored aesthetics to cars that mean business.

**CAST 1-PIECE, FFT WHEELS**

Nothing sets your car apart like the distinctive style and performance of TSW. Make a bold statement by choosing just the right design, finish, and size from TSW's collection of 1-piece cast wheels. Whether you're upgrading your sports coupe or full-size sedan, TSW offers an array of classic and modern-inspired designs.

**POLISHED FACE**

**SILVER MATTE BLK.CENTER W/DIAMOND CUT**

**2-PIECE POLISHED**

U.S. Mags Custom Shop wheels are made in the USA at our York, South Carolina facility, machined from a single 6061-T6 forged aluminum blank and built to order. Designed for classic cars and lowered street trucks, they offer made-to-spec fitment in 17-26" diameters with precise hub and brake clearance. Choose polished, brushed, or custom finishes with fast lead times.

**ASSEMBLED TO SPEC. OUR CAST CENTER 2-PIECE WELDED WHEELS ARE AVAILABLE IN ALMOST ANY SIZE AND CONFIGURATION THAT YOU COULD WANT.**

We'll handle the robotic welding to ensure your wheels fit perfectly, giving you the custom look and finish your vehicle deserves. The following charts show sizing available for both soft lip and traditional lip for each style of U.S. MAGS cast center 2-piece wheels.

LIP STYLE	SIZES
STEP	15x4, 15x6, 15x7, 15x8, 15x9, 15x10, 15x12, 15x14, 15x15
SMOOTH	17x7, 17x8, 17x9, 17x10, 18x7, 18x8, 18x9, 18x10, 18x11, 18x12, 20x8.5, 20x9, 20x10, 20x10.5, 20x11, 20x12, 20x14, 20x15

Get a taste of the U.S. Mags Street Heat Series. Featuring a 2-piece billet construction and white-hot styles of the 90s mini truck scene, the U.S. Mags Street Heat Series is here to spice things up like it's 1999. We went all out on fitment.

Available in 17" through 28" sizes and custom offsets, the Street Heat Series is ready for flawless fitment on everything from your Chevy S-10 Xtreme to your modern Ford Maverick.

## 2-PIECE FORGED WHEELS

Our 2-Piece Forged wheels offer flexibility in sizes, offsets, bolt patterns, and finishes that cannot be matched by a cast wheel. With sizes ranging from 17" to 28" and the ability to build backspacings in 1/8" increments, there is practically no fitment that can't be built.

U.S. Mags pay homage to American automotive heritage, offering a seamless fusion of classic style and modern performance. With a deep-rooted history dating back to the golden era of hot rodding, U.S. Mags is the go-to choice for enthusiasts looking to capture the spirit of vintage and muscle car culture.

## FORGED PRECISION SERIES

Your ride demands superior performance and unparalleled style, and the U.S. Mags Precision Series delivers. Our Precision Series wheels are designed and manufactured in the USA. Each wheel is machined from a single 6061 T-6 Aluminum alloy forging and available in 20" through 26" sizes. Offered in three standard finishes & build times as low as 2-weeks, U.S. Mags is the ultimate solution, no matter the ride.

**CAST BEADLOCK WHEELS**

MSA cast wheels deliver dependable strength and bold off-road style for UTVs, ATVs, and side-by-sides that see real action. Built using advanced casting methods, they balance durability and value while giving riders aggressive designs and finishes that look just as good on the trail as they do at the trailhead.

**!** Beadlock wheels are not DOT approved and for off-road use only.

**ALL TERRAIN  
MOTOCRUSHER**

The MotoCrusher's 8-ply radial construction is made from a proprietary competition-grade compound, making it the softest, stickiest, and most versatile off-road tire in our lineup.

Engineering with a flexible reinforced sidewall for low-pressure applications and advanced siping for increased traction.

EFX TIRES HAS BEEN LEADING THE WAY IN PERFORMANCE MUD, SAND & ALL TERRAIN TIRES.

## GRIN FFV109 MESH-STYLE DOMINANCE

The Grin FFV109 delivers an uncompromising mesh-style design, forged for maximum strength and relentless performance. Built to take punishment, it combines lightweight durability with an aggressive stance that refuses to blend in. Through the Wheel Pros Custom Shop, each forged wheel is CNC-machined in-house from aerospace-grade aluminum and built to your exact specs—and did we mention nearly unlimited finish options? Yeah, we've got that covered too. Forged to perform. Built to stand apart.

**CUSTOM STEERING WHEELS**

Elevate your build with our custom-forged steering wheels from top brands like Asanti, DUB, American Racing, Fuel Off-Road, and U.S. Mags. Our design process involves integrating styling cues and finishes from the wheel, adding a leather grip, and featuring an integrated horn button with a logo center cap. This approach ensures a unique piece that resonates with your customer's individuality. Like our wheels, the customization possibilities are endless

# AIR SPRING KITS & AIR MANAGEMENT

**ENHANCED STABILITY & LOAD SUPPORT**

**EXCELLENT RIDE QUALITY**

**OEM HITCH INTEGRATION**

**USER DEFINED PRESSURE PRESETS**

**HIGH FLOW AIR COMPRESSOR**

**SMART WIRELESS CONTROL**

LOGIQ Air Spring Kits bring the most sophisticated Air Spring technology to your truck. Our kits are vehicle specific, which let's us fine tune ride frequency for each application, ensuring the best possible ride while still maximizing load support. Depending on your truck, we have Leaf Assist or Coil Replacement Solutions.

Control is in the palm of your hands with LOGIQ Air Management. Our AirIQ system is the brains of the operation, allowing you to wirelessly operate your air springs with presets or full manual control. We have various AirIQ packages to choose from depending on your needs.

LOGIQ Air Spring Kits reimagine “helper bags” by combining heavy-duty lifting capacity with improved ride quality in a single, integrated system. LOGIQ Air Springs can be intelligently monitored and controlled using LOGIQ’s air management technology, known as AirIQ.

# WHICH AIR MANAGEMENT IS RIGHT FOR YOU?

## AirIQ SD1

PN: 50-41100

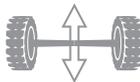

Our most affordable AirIQ solution with a Standard Duty compressor and single channel valving for control of both air springs together.

### Standard Duty Air Compressor

25% Duty Cycle  
2.03 CFM @ 0 psi

### 1-Channel

Rear Raise/Lower  
(Together)

## AirIQ SD2

PN: 50-41200

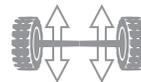

Upgrade to independent corner control with dual valving to manage offset or top-heavy loads and reduce body roll while cornering.

### Standard Duty Air Compressor

25% Duty Cycle  
2.03 CFM @ 0 psi

### 2-Channel

Rear Raise/Lower  
(Individual/Together)

## AirIQ HD2

PN: 50-42200

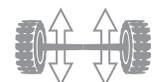

Step up to a Heavy Duty compressor with dual-channel valving for ultimate performance.

### Heavy Duty Air Compressor

33% Duty Cycle  
2.62 CFM @ 0 psi

### 2-Channel

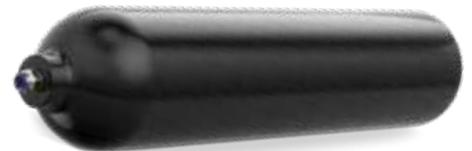

Rear Raise/Lower  
(Individual/Together)

## AIRIQ REMOTE CONTROL

PN: 50-21200

The AirIQ Bluetooth Remote Control allows real-time pressure adjustment and preset selection of any AirIQ SD1/SD2/HD2 from up to 200 feet away. The full color LCD display offers crystal-clear daytime and nighttime operation, while 3 AAA batteries ensure extended use. The included magnetic visor dock secures the remote for easy access.

## ALUMINUM BOOST TANK

PN: 50-10200

2-gallon Aluminum Air Tank for faster recovery & additional air storage capacity.

ReadyLIFT is the #1 preferred manufacturer of truck and SUV Suspension from Leveling Kits, SST Mid-Level Lift Kits, and Big Lift Kit Suspension Systems. Retain your factory ride while providing the looks and lift every vehicle owner wants. ReadyLIFT kits give you room to run larger tires, increase ground clearance, and provide a better stance all while retaining or improving the factory ride quality.

Elevate your driving experience with ReadyLIFT Premium MAX Suspension Systems! Engineered for those who demand the best, these systems combine race-inspired technology, precision craftsmanship, and rugged durability to dominate any terrain. Whether you're conquering rocky trails, hauling heavy loads, or making a bold statement on the road, ReadyLIFT delivers with the cutting-edge Falcon MAX3.3 Suspension featuring Falcon 3.3 shocks. Transform your vehicle's stance, performance, and capability while easily accommodating larger wheels and tires. ReadyLIFT isn't just an upgrade—it's a game-changer for on-road and off-road adventures. ReadyLIFT also offers a full line of standard Big Lift Kits.

# PREMIUM **SST** SUSPENSION SYSTEMS

ReadyLIFT's premium suspension systems set the standard for off-road performance and durability. Built to take your vehicle's capabilities to the next level, these advanced SST suspension systems combine unmatched strength, precision engineering, and innovative technology. Conquer rugged trails with ease or elevate your truck's stance for a bold, commanding presence on the road—all while enjoying exceptional ride quality and reliability. Featuring the all-new Falcon 2.1 shocks, ReadyLIFT delivers superior handling, enhanced control, and unparalleled performance for off-road and high-performance driving.

ReadyLIFT is the #1 preferred manufacturer of truck and SUV Suspension from Leveling Kits, SST Mid-Level Lift Kits, and Big Lift Kit Suspension Systems. Retain your factory ride while providing the looks and lift every vehicle owner wants. ReadyLIFT kits give you room to run larger tires, increase ground clearance, and provide a better stance all while retaining or improving the factory ride quality.

Transform your vehicle's look and performance with our premium leveling kits. Designed to eliminate the factory's forward rake, these kits give your ride a bold, balanced stance while creating room for larger, more impressive tires. With a 100% bolt-on design, installation is straightforward, and each kit includes all the hardware and step-by-step instructions you need. Plus, every kit is backed by our industry-leading ReadyGuard powertrain warranty for ultimate peace of mind. Upgrade your vehicle today and drive with confidence!

# ELEVATE YOUR ADVENTURE WITH READYLIFT PREMIUM SUSPENSION SYSTEMS

PN: 46-20255

- Race-Inspired Performance: Experience increased vehicle stability and significant improvements in both on-road comfort and off-road capability with our VOD (Volume Optimized Damping) technology.
- Vehicle-Specific Performance-Tuned Falcon 3.3 Dampers: Custom-tuned for all four corners for optimal handling.
- Fast Adjust Dampers: Falcon 3.3 Fast Adjust Dampers offer a wide range of adjustability for specific terrain and/or handling characteristics with two separate knobs to tune to your preference.
- Fast Adjust Knob: 3-Position Fast Adjust Knob for Soft, Custom, and Firm Compression. Soft mode allows a partial bypass of the main piston for a softer ride
- Micro Adjust: 8-Position Micro Adjust Dial offers refined damping adjustments
- Innovative Features: Benefit from Zone Rate Tuning for enhanced handling without sacrificing ride quality, and an Internal Negative-Rate Coil Spring to minimize top-out clunks and soften impacts.
- High-Quality Components: Equipped with a 1-piece Teflon bronze piston wear band and Zerk fittings for easy lubrication, ensuring longevity.
- All-Weather Performance: Featuring Red Line synthetic oil for consistent performance across all temperatures, these shocks are reliable in any condition.
- Salt Spray Resistant: All hardware passes a 1,000-hour salt spray corrosion resistance test, ensuring durability even in harsh environments.

SUSPENSION

TeraFlex is your go-to for premium Jeep Wrangler and Gladiator suspension systems, steering components, heavy-duty axles, body armor, and more. With roots dating back to the 1950s as MEPCO, our decades of Jeep expertise drive the innovative parts and accessories that define our product line and maintain TeraFlex's leading position in the Jeep market. Get the TeraFlex Advantage today!

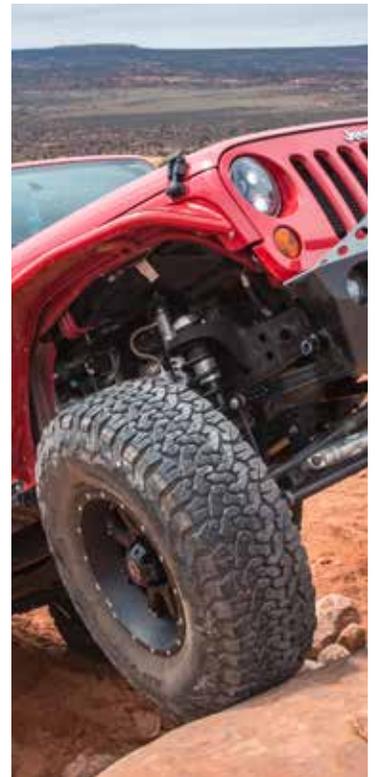

## MEET THE TRAIL SELECT SERIES -- READY WHEN YOU ARE

The Trail Select Series removes the hassle from suspension builds by packaging TeraFlex's most proven combos into ready-to-run kits. No guesswork — just trail-tested performance chosen for how Jeep owners actually build & wheel.

It's the easiest way to get the capability, control, and confidence you expect from TeraFlex. Each kit matches popular lift heights, real-world use cases, and ideal shock pairings while keeping daily driving stable and predictable.

- **ENGINEERED CONFIDENCE:** Get the right setup the first time — backed by TeraFlex geometry, tuning, and trail expertise.
- **TRAIL-READY, DAILY-DRIVEN:** Fully curated and compatible for balanced handling, articulation, high-speed stability, and reliable on-road manners.
- **BUILT THE WAY JEEP OWNERS UPGRADE:** Our most requested heights, shock pairings, and components — no overthinking, just the right combo at the right price.
- **START WITH SELECT, BUILD FROM THERE:** Choose a kit now and upgrade as you go — perfect for new owners and seasoned builders alike.

Trail Select streamlines our massive lift-kit catalog into the most in-demand, field-proven configurations, giving dealers and drivers a faster, simpler plug-and-play solution. You can still go à la carte, but Trail Select delivers the right setup at the right price for Jeeps who want capability, reliability, and simplicity.

## ADVENTURE KITS

## PERFORMANCE KITS

SMOOTH DAILY RIDE, WEEKEND-READY

MORE FLEX, MORE CONTROL

SUPERIOR STABILITY & CAPABILITY

JL WRANGLER

### 1541000 - 2.5" SPORT KIT

- Improved ride quality
- Falcon 1.1 Monotubes
- Enhanced stability for light off-road use

### 1542000 - 2.5" ADVENTURE KIT

- Improved body control
- Falcon 2.1 monotube shocks
- Better articulation with front lower arms

### 1543000 - 3.5" PERFORMANCE KIT

- Falcon 3.3 Adjustable Shocks
- Full articulation with Alpine arms
- Tuned for aggressive terrain

JT GLADIATOR

### 2041000 - 2.5" SPORT KIT

- Predictable on-road handling
- Falcon 1.1 Monotubes
- Added capability for weekend exploring

### 2042000 - 3.5" ADVENTURE KIT

- Front-end precision with upgraded control arms
- Falcon 2.1 monotube shocks
- Extended-travel hardware

### 2043000 - 3.5" PERFORMANCE KIT

- Falcon 3.3 Adjustable Shocks
- Full Alpine arm articulation
- Designed for aggressive terrain

JK WRANGLER

### 1341000 - 2.5" SPORT KIT

- Falcon 1.1 Monotubes
- Weekend trail capability
- Clearance for common off-road scenarios

### 1342000 - 3" ADVENTURE KIT

- Better articulation over stock
- Falcon 2.1 monotube shocks
- Upgraded geometry components

### 1343000 - 3" PERFORMANCE KIT

- Falcon 3.3 Adjustable Shocks
- Full Alpine arm control
- Front HD Trackbar

## SUSPENSION

TeraFlex builds Jeep suspension and drivetrain systems with real-world use in mind, focusing on ride quality, stability, and confidence across every type of terrain. From daily driving to long trail days, each component is designed to improve control, reduce fatigue, and keep your Jeep performing predictably when conditions change. The result is gear that does not just look the part, but actively improves how your Jeep drives, handles, and feels every mile you put on it.

### JL – ALPHA HD HINGED SPARE TIRE CARRIER KIT & HD ADJUSTABLE SPARE TIRE MOUNT KIT

#### FEATURES & BENEFITS:

- Max Tire: 40" (w/ Alpha HD Hinged Spare Tire Carrier)
- Max Tire: 35"/ 100 lbs. (w/out tailgate reinforcement)
- Wheel Pattern: 5x5"
- Innovative and unique design w/ easy adjustability
- Maintains single-handed entry to the rear cargo area

Carrier Kit & Mount Kit – 5x5"	<b>4838920</b>
Spare Tire Carrier Kit	<b>4838900</b>
Spare Tire Mount Kit – 5x5"	<b>4838910</b>
Spare Tire Mount Kit – 8x6.5"	<b>4838940</b>
4xe Speaker Bracket Kit – Rear	<b>4838290</b>

### JL | JT | JK - FRONT SWAY BAR QUICK DISCONNECT KIT

The Sway Bar Links quickly disconnect and swing up out of the way for unrestricted axle articulation during off-roading. While connected for street use, the link provides immediate reaction during sway bar loading to eliminate excess play. This results in improved lateral control and steering response compared to the stock rubber sway bar link bushings.

JL/JT - Quick Disconnect Kit (0-4" Lift)	<b>1764000</b>
JK - Quick Disconnect Kit (0-2.5" Lift)	<b>1753010</b>
JK - Quick Disconnect Kit (3-4" Lift)	<b>1753000</b>
JK - Quick Disconnect Kit (6" Lift)	<b>1756000</b>

### JL | JT | JK – ROCKGUARD BUMPERS

#### FEATURES & BENEFITS:

- Center bolt pattern fits all major winch models – including larger Warn Zeon
- Winch mount integrated into bumper design
- Recessed mounting allows more grille space for taller winches
- Features two D-Ring Mounts

JL/JT - RockGuard Crest Front Bumper	<b>4655200</b>
JL/JT - RockGuard Crest Front Bumper Skid Plate	<b>4655210</b>
JL/JT - RockGuard Crest Front Bumper Hoop	<b>4655220</b>

## PERFORMANCE SHOCKS

Historically, universal shock absorbers and steering stabilizers were adapted to many applications with little tuning. In 2017, Falcon Performance Shocks changed this by engineering dampers specifically matched to TeraFlex lift coil springs. Falcon shocks and stabilizers meet the unique needs of Jeep Wrangler/Unlimited and Gladiator models. After success in the Jeep market, customer demand led to vehicle-specific shock systems for trucks and SUVs, tuned to work with factory coil or leaf springs.

### JEEP JL WRANGLER RT COILOVERS

This system has been engineered to address the common shortcomings of coilover shocks prevalent in today's noisy and generically tuned coilover market. Falcon coilover shocks are meticulously designed for utterly silent operation. Sealed Gimbal Bearing shock mounts ensure solid and noiseless control when combined with the TeraFlex coilover mount solution. This unique mount design allows for full suspension cycling without any component contact.

**FITS:** JL Wrangler Unlimited (4-Door) only

**FEATURES & BENEFITS:**

- Race-inspired performance for increased vehicle stability
- Improved dynamic roll control and low-speed damping
- Dramatic improvement in on-road comfort and off-road performance
- Optimized fitment for unobstructed suspension travel and articulation
- 13" stroke, Front and Rear
- Adjustable crossover for True Dual-Rate
- 4.5" lift, +/- 1.25" adjustability using quick adjust snap rings
- Coated, Booted and Sealed, oversized Gimbal Lock Bearings mount and maintain shock orientation
- JL specific springs, and shock tuning
- Falcon 3.3 series Quick Adjust tuning

**JL WRANGLER**  
4.5" Lift - All 4

### FALCON SP2 3.5 E-ADJUST PIGGYBACK SHOCK KITS

Adjust your suspension tuning on the fly with the Falcon SP2 3.5 e-Adjust Piggyback Shocks! In addition to the shock-mounted 8-Position Micro Adjust Dials, a 2-Position In-Cab Switch can be manually adjusted from Soft to a preselected Firm setting.

**INCLUDES:** (4) SP2 3.5 e-Adjust Piggyback Shocks (front, rear), e-Adjust Control Module, In-Cab Switch (2-Position), e-Adjust Wire Harness Extensions (shocks, power), Roost Guards (rear), all necessary hardware.

**FEATURES & BENEFITS:**

- SP2 3.5 e-Adjust Piggyback Shocks offer a wide range of adjustability for specific terrain and/or handling characteristics
- Manually adjust from Soft to Firm w/ the 2-Position In-Cab Switch
- The desired Firm setting is controlled manually by the 8-Position Dial
- SP2 Mode Adjust tunes compression and rebound for Soft or Performance settings
- Ideal for daily driven Jeeps as well as the serious enthusiast wanting to adjust damping from the driver seat

## TRUCK TIRES

The Avix Trailtek RT is made for adventurers who demand superior off-road performance without sacrificing on-road comfort. Built with rugged durability, this tire is engineered to tackle challenging terrains while providing a smooth, quiet ride on highways. With its innovative features, the Trailtek RT combines advanced design with functional benefits for those who need a reliable, high performance tire for their off-road truck, Jeep, or SUV.

A Rugged Terrain (R/T) tire that offers more off-road grip than a traditional All-Terrain (A/T) while maintaining better on-road comfort and longevity than a Mud Terrain (M/T).

### ENHANCED TREAD PATTERN

The dual-purpose tread offers strong off-road traction and a quiet on-road ride. Its double block shoulder boosts stability and grip, while noise reduction ensures reliable braking on wet and dry surfaces.

### DURABLE CONSTRUCTION

The tough 3-ply construction shrugs off punctures and cuts, giving you the confidence to tackle rocky trails and uneven ground. Our high-grip silica compound delivers reliable braking & traction in wet or dry conditions.

### LADDER STEP TREAD BLOCK

The ladder step tread design enhances stability by reducing tread squirm, while built-in wear indicators at 100%, 75%, 50%, and 25% tread depth provide clear insights into remaining tire life.

### STONE & MUD EJECTOR

Built-in ejectors clear debris from the tread, keeping traction strong in mud, rocks, and rough terrain.

### DUAL SIDEWALL DESIGN

Customize your appearance with two sidewall designs to suit your style.

When the road ends, EFX Off-Road Tires are just getting started. Designed for the most demanding off-road conditions, EFX tires deliver exceptional durability, traction, and performance in the harshest terrains.

EFX TIRES HAS BEEN LEADING THE WAY IN PERFORMANCE MUD, SAND AND ALL TERRAIN TIRES.

ALL TERRAIN  
**MOTORALLY**

The MotoRally features an upgraded tread design utilizing increased pattern spacing and improved staggered sidewall lugs - resulting in a hard packed powerhouse that handles rocks with ease.

ALL TERRAIN  
**MOTOHAMMER**

The MotoHammer tire is the single best hard pack tire on the market, boasting the best/largest contact patch, superior traction control, rugged 8-ply carcass and radial performance.

ALL TERRAIN  
**MOTORAVAGE**

Designed to conquer every terrain from rocks to sand, the MotoRavage's 8-Ply rating, soft compound and deep tread blocks don't even blink at a gnarly rock garden or mud pit.

ALL TERRAIN  
**MOTORAVAGE XL**

The all-new MotoRavage XL builds off the wildly successful MotoRavage with a deeper sidewall and increased lug depth of up to 1.5" guaranteed to get you out of the deep mud pits and over the rocks with ease.

ALL TERRAIN  
**MOTOCLAW**

The MotoClaw comes standard with incredibly strong lugs, spaced precisely right to provide a smooth ride under the most intense terrain. This ATV tire will climb rocks, grab roots, latch on to side ruts and perform in light mud.

ALL TERRAIN  
**MOTOFORCE**

The EFX MotoForce has a tough 6-ply bias construction with deep 3/4" lug depth that extends beyond the shoulder into the sidewall for superior sidewall protection from rocks, ruts or hazards.

ALL TERRAIN  
**MOTOMTC**

The MotoMTC boasts a 6-Ply construction with enormous 1.25" lugs, spaced just right to provide a smooth ride under the most intense terrain. This tire will climb rocks, grab roots and even perform in light mud and sand.

ALL TERRAIN  
**MOTOMAX**

The MotoMax ATV tire is an all-purpose mud tire designed to perform in medium to light mud while providing a stable, comfortable ride on hard pack surfaces. Designed with deep 1" lugs and evenly spread contact patch for stable traction

ALL TERRAIN  
**MOTOVATOR**

The MotoVator is a true radial, steel belted, puncture resistant tire, capable of high speeds on any hard pack surface. Utilizing light truck engineering, the inner and outer bead are steel belted to ensure the smoothest, quietest ride quality on the market.

ALL TERRAIN  
**MOTOCRUSHER**

The MotoCrusher's 8-ply radial construction is made from a proprietary competition-grade compound, making it the softest, stickiest, and most versatile off-road tire in our lineup. Engineering with a flexible reinforced sidewall for low-pressure applications and advanced siping for increased traction.

MUD  
**MOTOSLAYER**

Make the elements dread the tread with the all-new EFX MotoSlayer. Owing up to its namesake, the MotoSlayer shows no mercy while brutalizing the mud pits and its competition along the way. Neurotically engineered to be the most capable mud tire in the industry, the MotoSlayer boasts an updated checkmark tread design built for ample tracking in forward and reverse.

MUD  
**MOTOHAVOK**

The MotoHavok is the only ag-style mud tire to feature an ultra deep wheel lip protector, armoring your custom wheels from debris when in motion. The tread pattern is industry first check mark design giving you ample traction in both drive and reverse.

When the road ends, EFX Off-Road Tires are just getting started. Designed for the most demanding off-road conditions, EFX tires deliver exceptional durability, traction, and performance in the harshest terrains.

**GRIPPERA/T**

The Gripper A/T features a bold off-road look that instantly transforms any vehicle. The aggressive, high-void all-terrain tread features a stiff sidewall to help prevent punctures and bruises under the tread and in the sidewall. Built to improve stress distribution, tread life, and wear, the Gripper A/T is your go-to tire for the daily-driven off-road truck or SUV.

COMPETITION / D.O.T. COMPETITION TIRES

**NT01**  
14/15/16/17/18/19/20

**NT555R11**  
15/16/17/18/19/20/22

**NT-05**  
15/17/18/19/20

The NT555R11™ is recommended for dry competition use.

Toyo Tires All-Terrain and Mud-Terrain Tires are built to tackle it all. Mud, rocks, and uneven surfaces are no match for the aggressive tread patterns and deep voids that give you maximum grip. Get ready for the road less traveled.
